

## Dr. Ludmila Vassilieva

### **Founder of The Holistic Healing Approach in Medicine Founder of Holistic Healing Medical Centre**

Being born into a family of influential doctors and then eventually marrying one; medicine was never just a career choice, but rather a way of life and a natural passion for Dr. Ludmila. Being a scientist and a visionary, she saw the cracks in the modern system of healthcare from very early on in her career. She strongly believed that medicine should equate to healing, not just suppress symptoms. Her strong beliefs propelled her to study and master the science of Iridology, Homeopathy, Chinese Medicine, and Ayurveda in addition to her Doctorate in Modern Medicine and a PhD.

While working as a General Practitioner and a Consultant for the No.1 State University Hospital in Donetsk, Dr. Ludmila also conceived and established the pioneering medical concept of Holistic Healing Medicine that combined Western science with Eastern practices and wisdom. She founded her first Homeopathic Centre in Donetsk, which later expanded to a branch in Kiev, and the Holistic Healing Medical Centre in Dubai, UAE.

Having Homeopathy legislated and registered was quite the task but Dr. Ludmila girded herself to the challenge and was the first Doctor in Ukraine to have a legal license to practice Homeopathy with her Holistic Healing Approach.

Years later she battled the same resistance and challenges in UAE. Her persistence, determination and commitment to Holistic Healing was rewarded and UAE can now boast that it is one of the only two countries in the world who had the foresight to implement the Holistic Healing Healthcare, into its country's laws.

At present, Dr. Ludmila is working on a series of books that represent her vision for Holistic Healing Medicine as a complete Healthcare System for the 21st Century. She is the author of many scientific and popular articles and medical journals. She is an internationally recognized Holistic Doctor who is a frequent guest lecturer and speaker on talk shows.

Dr. Ludmila resides in Dubai and loves to travel all over the world as an expert and representative for Holistic Medicine. Her promise, "You will go from Medication to Meditation," stands strong, sincere and exciting just like the doctor herself.
